ABSTRACT

This guide lists approved teacher education programs in Texas institutions and is divided into three parts: (1) college approved programs; (2) approved programs for areas of specialization; and (3) approved competency-based programs. Part One of this guide alphabetically lists the Texas institutions with approved teacher education programs. Certification officers were from colleges and universities in Texas. Under each institution are listed the approved programs as of September 1, 1981. Included in this information is the funding source of the institution, the highest academic degree offered, and the accrediting agencies, as well as the name of the dean and the accrediting officer. Part Two lists institutions with approved specialized programs. This listing is organized alphabetically by the type of specialty and includes the areas of elementary education, secondary education, special education, special services, and vocational education. Part Three provides a list of colleges and universities that have competency based programs approved by the State Board of Education from June 1972 through September 1, 1981. Included in this list are the approval date and the competency based programs offered. (JD)
